

*Welcoming Families Home!*

## *Our Story*

Heckaman Homes has been welcoming families home since its founding in 1969. Crafting quality-built homes for over 50 years from our original location in Nappanee, Indiana has bolstered our reputation across the Midwest and beyond. Throughout Heckaman Homes' history, we have produced over 20,000 new homes for our valued customers, their friends, and their families. That referral stream and number of homes crafted continues to grow with each satisfied Heckaman Homes' homeowner!

Heckaman Homes has a variety of standard floorplans to choose from along with the capability of customization to fit the needs of any customer. With a network of local, independent builders available to work through details and questions on the retail side with you, Heckaman Homes stays behind the scenes until it is time to build. From the initial quote and through the process of foundation to finish, your builder will serve as the general contractor, keeping communications streamlined between retail customer to builder and from builder to Heckaman Homes.

Inspected and approved by the destination state during the process of construction, each home built at Heckaman Homes must meet or exceed the same codes and standards as any site-built home. Building indoors allows for fewer delays, weather-related issues, and cost overruns typically associated with on-site construction. Using name brand materials such as: Andersen, CertainTeed, Georgia Pacific, Shaw, Corian, and Moen will ensure your peace of mind that your decision to build with Heckaman Homes is a great investment for you and your family!

We thank you for your interest in Heckaman Homes and we hope you will give us the opportunity to build your family's dream home!
